HUMPHREY Acuitus 5015 Autorefractor

[For price please contact us](#)

The Humphrey ACUITUS Automatic Refractor/Keratometer allows you to refract more of your patients than ever before. With its expanded refracting capabilities, you and your staff will enjoy the ability to easily refract young children and elderly patients. Moreover, you will be able to refract one-day post-operative IOL and refractive surgery patients. With Auto Acquisition, the measurement is easily acquired upon instrument alignment.

The ACUITUS Model 5015 also features central and peripheral keratometry measurements.
